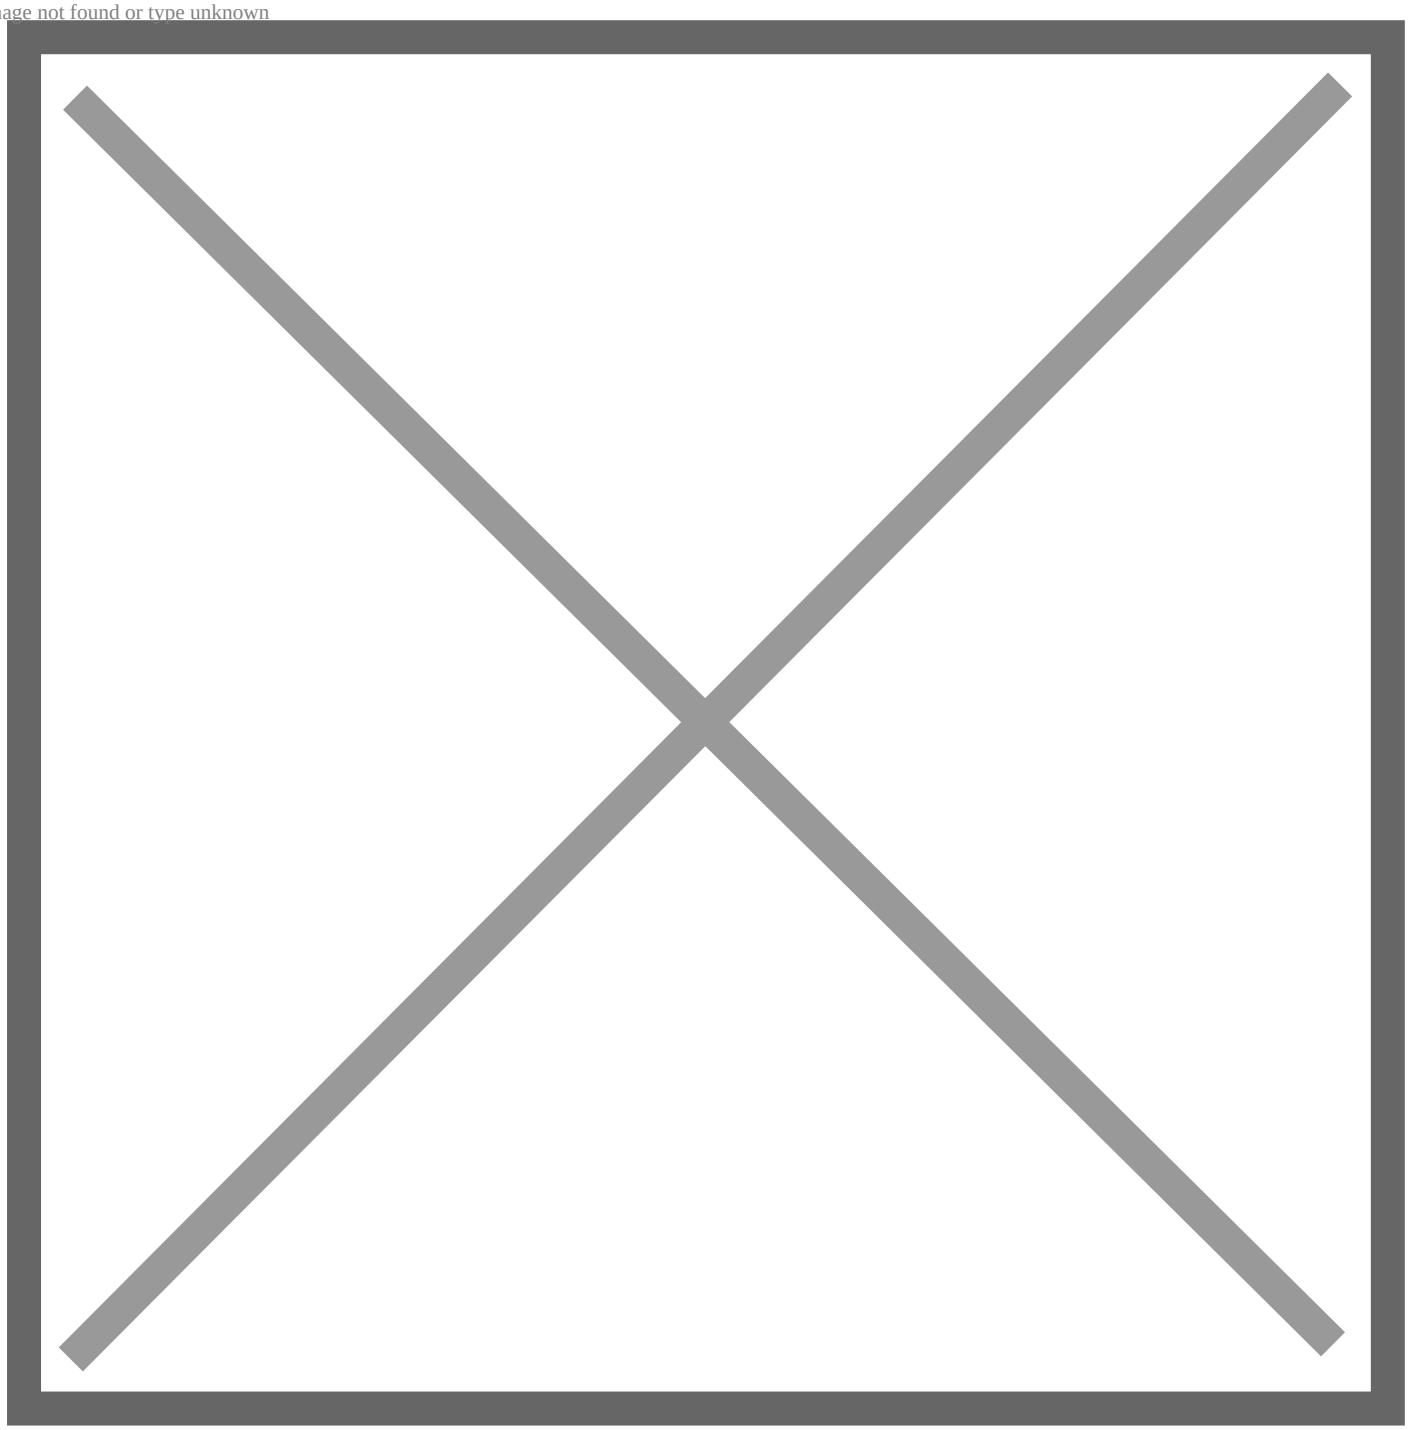
2027 Lexus TZ

May 06, 2026

Image not found or type unknown



Lexus expands its electrified lineup for 2027 with the all-new Lexus TZ, the brand’s first three-row, all-electric, AWD SUV. Built on Lexus’ TNGA platform, it is designed to blend driving enjoyment with refined comfort, supporting diverse lifestyles while delivering exceptional luxury SUV dynamics. There are two lithium-ion

battery options—
76.96 kWh and 95.82 kWh—and an evolved DIRECT4 AWD system as standard. An enhanced body structure contributes to handling stability and a composed ride, while Lexus Safety System+ 4.0 (LSS+ 4.0) offers advanced safety and convenience.
