Color Changes:

- Exterior: Blue Vortex Metallic added (Standard model)
- Interior: White, Circuit Red, Black with Yellow Accents and Dark Gray Streamline trim added (F SPORT)

PLANO, TX – A smooth ride, fresh new look and style — the 2019 Lexus RC is ready to roll. With the Lexus brand's dedication to high performance and world-class craftsmanship, drivers can count on an emotional driving experience with the RC coupe.

Balance of Power

The idea of “sharper and more graceful” defines the LC flagship, so Lexus engineers have applied the same concept to the new RC. This included enhancing the car's aerodynamics and fine-tuning the suspension system and powertrain. Armed with a more stable ride quality and sharper handling characteristics, the new RC is more athletic and responsive than ever.

Enhanced aerodynamics — such as a new fin shape on the side window mold and a duct on the rear bumper that improves air flow, result in improved stability. New available 19-in. wheels and tires with increased grip deliver excellent steering response. Stiffer suspension bushings have been incorporated along with new shock absorbers which provide significant damping force from low suspension stroke speeds. Thanks to a significant amount of real-world testing that allowed constant fine-tuning by the chassis engineers, the new RC delivers an extremely supple ride quality and razor-sharp handling characteristics.

Lexus RC 300 rear-wheel drive is powered by a 2.0-liter turbocharged inline four-cylinder engine. This smooth operator produces 241 horsepower with 258 lb.-ft. of peak torque at 1,650-4,400 rpm. It's paired with an eight-speed sport direct-shift automatic transmission with paddle shifters and consumes fuel at a rate of 21 mpg city / 30 mpg highway / 24 mpg combined manufacturer estimated fuel economy.

The RC 300 all-wheel drive has a 3.5-liter V6 engine. It produces 260 horsepower and 236 lb.-ft. torque at 2,000-4,800 rpm, and is teamed with a six-speed automatic transmission with paddle shifters. The RC 350 gets a 311-horsepower version of the V6. With rear-wheel drive, it gets the eight-speed Sports Direct Shift automatic transmission with paddle shifters; with all-wheel drive, it's a six-speed automatic.

Striking Style and Color

Lexus designers kept the RC's dynamic coupe proportions, while enhancing features that are pleasing to the eye. Influenced by the flagship LC sporty coupe, every angle of the RC provides a striking view. Moreover, the RC demands attention with its new sleek front grille, headlamps and taillamps.

The luxury coupe also comes with new standard 18-inch alloy wheels (19-inch wheels available) with a distinctive split-5-spoke design. In addition, a total of 10 different exterior colors will be available for the RC, including a new vibrant color, Blue Vortex Metallic.

Refined Interior

Drivers will feel right at home in the luxury coupe cabin. To enhance the look and feel of the interior, a new Dark Gray Streamline treatment has been applied to the heater control and audio panels. The design also includes enlarged knee pads to create a heightened sense of space, a new analog clock and cup holder.

For the 2019 RC, Lexus offers six different combinations of interior trim. Colors for the standard coupe include Glazed Caramel, Playa and Black. The RC F SPORT models will get three new bold colors: Circuit Red, Black with Yellow Accents and White.

Drive Mode Select: Listens to You

The RC listens to the driver through the Drive Mode Select system. On standard models Drive Mode Select tailors the vehicle's throttle response, electric power steering and climate settings with a choice of Normal, Eco or Sport modes. F SPORT adds Sport S+ mode for maximum performance from the Adaptive Variable Suspension (AVS) and a Custom mode which lets the driver personalize the vehicle's response.

F SPORT: Experience Amazing

The 2019 RC F SPORT gets new features exclusive to the coupe which include a sleek grille mesh pattern and sharp 19-inch alloy wheels influenced by the Lexus flagship LS and LC models.

Safety is a Staple with Lexus

Lexus Safety System+ is standard, which includes Pre-Collision System (PCS) with Pedestrian Detection, High Speed Dynamic Radar Cruise Control, Lane Departure Alert with Steering Assist and Intelligent High-Beams. Also, Lexus Enform Safety Connect is complimentary for the first 10 years of ownership with access to Lexus Enform response centers 24/7/365.

The 2019 RC has an available Blind Spot Monitor (BSM). This feature is designed to assist the driver when changing lanes by providing information not only about vehicles in the side mirror blind spot zones, but also by helping to detecting vehicles approaching from the rear in adjacent lanes. The option also includes Rear Cross-Traffic Alert (RCTA), which helps detect approaching vehicles from both rear sides to assist the driver when backing out of a parking space or driveway.

Full Access: Multimedia and Connected Services

The 7-inch high-resolution multimedia display provides immediate, simultaneous access to audio or climate controls and various systems.

The new Apple CarPlay[®] compatibility keeps the driver connected in a multimedia environment. Customers can access the interface from their iPhone[®] through the vehicle's multimedia display. Simply connect an iPhone to get directions, make calls, send and receive message via Siri[®], and get access to favorite apps like Spotify[™], Audible[®] and Apple Podcasts[™].

With the new Amazon Alexa integration, the feature offers the driver hands free capability. You can listen to audiobooks, play favorite music, make lists, check the weather, get news briefings, and much more. Users can also control compatible smart-home devices such as lighting, thermostat and security systems. Offering added in-vehicle convenience, Alexa even syncs to the navigation system to provide on-the-go recommendations.

With Lexus Enform Service Connect, also complimentary for the first 10 years of ownership, the vehicle can send alerts for specific factory recommended maintenance, simultaneously alerting a preferred Lexus retailer. The Lexus Drivers mobile app or LexusDrivers.com website can be used to set push-reminders and alerts for maintenance and service issues.

Lexus Enform Remote (complimentary for the first year of ownership) lets you lock and unlock doors, start the engine and climate controls, check the fuel level, and more all through your smartphone, smartwatch or using the Lexus skill for Amazon Alexa-enabled devices at home.

Lexus Enform Destination Assist (complimentary for the first year of ownership) acts as an in-vehicle personal concierge, providing directions and destinations delivered by a live agent. The complimentary Lexus Enform App Suite 2.0 app offers access to favorite mobile applications through the vehicle's center console display, including Amazon Alexa compatibility, NPR One[®], iHeartRadio[®], Slacker[®] and Yelp[®].

The 2019 RC 300/350 models are set to arrive at dealerships in November 2018 with a starting Manufacturer's Suggested Retail Price (MSRP) of the following:

- RC 300 RWD – \$41,145
- RC 300 AWD – \$43,835
- RC 350 RWD – \$44,075
- RC 350 AWD – \$46,240

Lexus stands true to its tradition by offering high performance, style and safety in a luxury coupe — the 2019 RC.
