TORRANCE, Calif., Dec. 21, 2011 – Taking the new Lexus design direction one step further, the LF-LC 2+2 sport coupe will be unveiled at the North American International Auto Show in Detroit at 1:25 p.m. Eastern time on January 9, 2012.

“Crafted from a clean sheet of paper at the request of Lexus headquarters in Japan, the LF-LC blends both high technology and organic shapes to connect the driver to the machine,” said Mark Templin, Lexus group vice president and general manager. “The clean lines of the vehicle emphasize motion, creating a distinctive look for this futuristic sport coupe.”

Conceived as a design exercise to explore the future of Lexus design, the LF-LC was created at the company’s Caltex design studio in Newport Beach, Calif.
