

2020 Lexus RX 450hL

September 03, 2019

Image not found or type unknown

The RX 450hL continues to serve as powerful reminders of the brand's hybrid leadership, with 308 combined system horsepower for powerful performance and impressive EPA estimated 29 combined MPG on RX 450hL. The Lexus Hybrid Drive system pairs the D4-S fuel injection 3.5-liter V6 gasoline engine with two high-torque

electric drive motor-generators for strong acceleration and passing performance. Instead of transfer gears and a driveshaft to the rear wheels, the all-weather drive system employs a second, independent electric motor to drive the rear wheels, when needed, to help maintain optimal traction. Now standard on the RX 450hL, guests will find body-hugging NuLuxe seating and interior trim.
