

2020 Lexus UX Hybrid

October 25, 2019

With 181 total system horsepower, the UX 250h is the fuel-efficient leader with the best MPG of any CUV or SUV without a plug in the U.S. market. This hybrid provides exhilarating driving with high-speed responsiveness and a feeling of smooth, natural acceleration. The UX 250h is equipped with all-wheel drive standard. It is more compact, lighter and has less internal friction than previous Lexus hybrid systems. Compared to similarly-sized Lexus hybrids, the power control unit of the UX is more powerful yet 20 percent smaller and 10 percent lighter. The UX 250h model offers all-wheel drive (AWD*) using a separate, dedicated electric motor-generator with 7 hp output integrated into the rear differential.
