The 2020 Lexus IS continues to build on the Japanese luxury sports sedan heritage it helped shape in the late ‘90s and early 2000s. As an entry point in the Lexus sedan family, the Lexus IS aims to create a great first impression for those looking for a sport-minded vehicle that’s equally adept at sprinting to the office or

providing a first-class ride for a dinner date across town. The new Lexus IS F SPORT Black Line Special Edition is added to the fold for 2020, featuring a curated collection of stylish and esthetically appealing additions.
