

Toyota will further extend its production shutdown

March 26, 2020

Due to the ongoing COVID-19 pandemic and significant decline in vehicle demand, Toyota will further extend the length of its production suspension at all of its automobile and components plants in North America, including Canada, Mexico and the U.S.

The manufacturing facilities will remain closed through April 17, resuming production on April 20. Our service parts depots and vehicle logistics centers will continue to operate. We will continue to monitor the situation and take appropriate action in a timely manner.
