

2021 Lexus NX Hybrid

July 24, 2020

Image not found or type unknown

The NX 300's raised driving position evokes a sporty driving experience with features to complement a busy lifestyle. For 2021, the Lexus NX 300 and 300h will be offered in Nori Green Pearl with the addition of Blind Spot Monitor with Rear Cross Traffic Alert as standard equipment, the Lexus Safety System+ 2.0. Drivers also

have the added convenience of the HomeLink feature added to the Navigation option. This includes the Lexus Safety System+ 2.0 as standard equipment, Lexus Enform Wi-Fi (with 4GB of data complimentary for 3 months) and a power back door with kick sensor available as a standalone option. Additional options include: Intuitive Parking Assist, a system designed to notify the driver of the location of detected objects and proximity, helping with routine tasks like parallel parking.
