

2022 LEXUS IS 500 F SPORT PERFORMANCE

February 22, 2021

As the first model in the Lexus F SPORT Performance line, the first-ever 2022 IS 500 dials up the sports sedan formula to 11 with a boost in displacement and performance over the IS 350 F SPORT. With a push of the engine start button, its naturally aspirated 5.0-liter V8 engine roars to life, providing a not-so-subtle reminder that something special lies beneath its raised hood. The 2022 IS 500 accelerates from 0-60 MPH in 4.4 seconds according to AMCI testing and has an EPA-estimated 25 mpg highway rating.
