

# 2022 Lexus ES

April 18, 2021

The quintessential ES luxury sedan is receiving a refresh for 2022 with numerous multimedia, safety, and style updates, as well as the introduction of a new Dynamic Handling Package (DHP) on the F SPORT gas model. All ES models receive updated multimedia functionality for more intuitive control, as well as an upgrade to Lexus Safety System+2.5, which adds Intersection Turning Assist and Emergency Steering Assist to the Pre-Collision System. As new Lexus models launch with Lexus Driving Signature, the new ES also adds additional performance enhancements and a new F SPORT strategy focusing on style and performance. With the added variety, the ES Family continues to offer Lexus guests choices to fit their diverse interests and lifestyles.
