

2022 Lexus ES Hybrid

September 10, 2021

The quintessential ES luxury sedan is receiving a refresh for 2022 with numerous multimedia, safety and style updates, as well as the introduction of the first-ever ES 300h F SPORT. All ES models receive updated multimedia functionality for more intuitive control, as well as an upgrade to Lexus Safety System+2.5, which adds Intersection Turning Assist and Emergency Steering Assist to the Pre-Collision System. The new ES was designed with the Lexus Driving Signature philosophy and features performance enhancements and a new F SPORT strategy focusing on style or performance. With the added variety, the ES Family continues to offer Lexus guests choices to fit their diverse interests and lifestyles.
