

# 2022 Lexus IS

September 10, 2021

Last year's reimagined Lexus IS struck the perfect balance of sportiness and sophistication, making it the best IS to date. Building upon this success, the IS 300 and 350 F SPORT return for 2022 with new packages and options that add additional refinement and convenience to the front-engine rear-wheel-drive sports sedan. An all-new Premium Package is available on 2022 IS 300 and includes a host of interior and exterior features, while the Comfort Package now includes rain-sensing intermittent windshield wipers and auto-dimming rearview mirror with Homelink system. The 2022 IS 350 F SPORT receives a new Memory Package, as well as a power rear sunshade available as a standalone option.
