

2025 Lexus UXh

December 20, 2023

Image not found or type unknown

A new powertrain has arrived for the 2025 Lexus UX 300h as the versatile compact crossover now boasts 196 total system horsepower. A new hybrid transaxle and lightweight lithium-ion battery contribute to the higher output with the 2025 UX 300h providing a more responsive performance. Infused with dynamic attitude, the

Lexus UXh is engineered to deliver quick and engaging driving with a Lexus-smooth demeanor. The 2025 model year also sees updated technology and safety features, and Copper Crest has been added as an exterior color option.
