

2027 Lexus ES

August 10, 2026

Image not found or type unknown

The ES has been a fixture in the Lexus lineup since being launched alongside the flagship LS in 1989. Redesigned for 2026, the ES carries over to 2027 unchanged and offers a hybrid powertrain (ES 350h) and battery electric models (ES 350e and ES 500e).
